- Disability Advocacy
 Project Guidelines
- The various Social Securitydisability benefits
- 3. The Social Security disability definition
- 4. The application and appeal process
- 5. Q & A

Doing What's Legally Possible to Create a Just World Since 1966.

Social Security Overview: The Application and Appeal Process

Presented by Sarah Kupferberg, Esq.

Disability Advocacy Project

- Represent low-income disability claimants at all levels of appeal
- Disability appeals
- Appeals based on non-disability factors
- Continuing Disability Reviews
- Age 18 reviews
- Generally limited to those on Safety Net Assistance
- Some cases for claimants who get Medicaid but not cash Public Assistance

Supplemental Security Income

- Needs based- Income and Resource limits
- Resource limit of \$2,000 for individuals; \$3,000 for couples
- Must meet Social Security's disability criteria
- Paid benefits from the first full month after the date of application
- No retroactive benefits for time prior to the application or the month you apply
- Benefits suspended for incarceration/institutionalization
- Benefits terminated if suspended for 12 months or more

Social Security Disability Insurance

- Benefits to disabled or blind individuals who have paid Social Security taxes
- Primary insurance amount (PIA) is based on claimant's FICA taxed earnings
 - If the PIA is under the SSI Federal Benefit Rate, claimant may be eligible for SSI and SSD
- Date Last Insured (DLI) is the date the claimant is last eligible for SSD qualification
 - Usually, 5 years after federally taxed work stops
 - To be currently insured you must have worked 5 of the past 10 years (20/40 quarters)
- If someone applies for SSD after DLI has passed, they must show that the onset of disability was prior to the DLI

SSD Continued

- Retroactive payments can be made to claimants for the time between the alleged onset date and the date of application
 - Up to 12 months
 - 5 month waiting period
- Eligible for Medicare after 24 months
- Benefits may be available to a legal spouse (widow, divorced, or current)
- Benefits available to dependent children

Disabled Adult Child Benefits

- Available to an adult, who has a disability that started prior to age 22
- Can collect under a parent's Social Security Record
 - Must have eligible disabled, retired, or deceased parent
- Adult child must:
 - Be 18 or older
 - Be unmarried
 - Meet the definition of disability
 - Have never made substantial earnings

Social Security "Disability" Definition

• "The inability to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than 12 months"

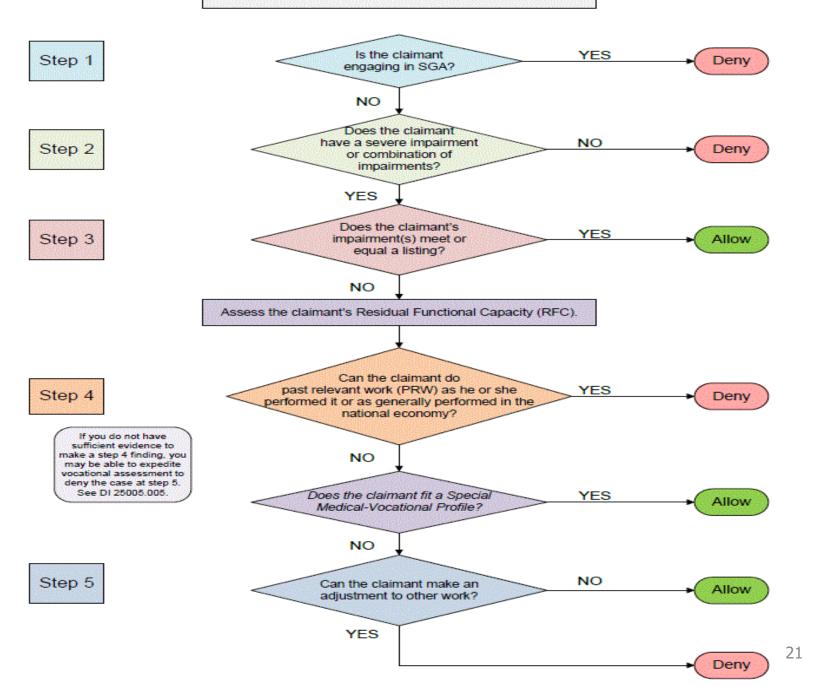

Five Step Process

1.Is the claimant working

- 2. Is the claimant's condition Severe
 - 3. Does the condition meet a bluebook listing
 - 4. Can the claimant do "Past Relevant Work"
 - 5. Can the claimant do any work in the National Economy

Adult Initial Sequential Evaluation

Step 1: Is the Claimant Working

- Include both "on the books" and "off the books" work activity
- Work activity Over Substantial Gainful Activity
 ("SGA") precludes a finding of disability
- SGA changes yearly
- In 2023 it is \$1470 (\$2460 for blind individuals)
 - Some impairment related work expenses can be deducted from earnings
 - Passive income is not included in SGA but can affect SSI eligibility

Step 2: Is the Claimant's Condition Severe

- Diagnosis by a medical doctor or other advanced practitioner accepted by Social Security Administration (SSA)
- The condition must significantly limit the ability to do basic work activities
- The condition must have lasted 12 months, be expected to last 12 months, or be expected to result in death

Step 3: Does The Condition Meet A Listing

- A list of severe impairments published by SSA: https://www.ssa.gov/OP_Home/cfr20/404/404-app-p01.htm
- Listings are very specific and cover only the most severe conditions
- If a listing is not exactly met, SSA can decide if the impairment is as severe as a listing
 - Must have a medical expert determine if a condition equals a listing

Residual Functional Capacity Determination

- If a claimant does not meet a listing a Residual Functional Capacity (RFC) determination is made before moving on to steps 4 and 5
- The RFC is the most an individual can do despite their limitations
 - Includes physical and mental health limitations
 - Exertional and non-exertional limitations
- Must be based on the relevant evidence in the record

Step 4: Can the claimant do Past Relevant Work

- Claimant must establish that the limitations prevent them from performing Past Relevant Work
 - Work within the past 15 years
 - That was at the level of Substantial Gainful Activity
 - That lasted long enough to complete the training period
 - Jobs lasting less than 6 months can be unsuccessful work attempts that do not count

Step 5: Can The Claimant Do Any Other Work

- SSA will look to see whether there is any competitive remunerative work in the National Economy that the individual can still do
 - Based on Residual Functional Capacity (RFC), Age, Education, and Past Work Experience
 - Burden shifts and SSA must show that work exists that a claimant can do
- Looking at the Medical Vocational Guidelines
- Complete reduction of the occupational base due to RFC

Medical Vocational Guidelines/ "Grids"

Table No. 3—Residual Functional Capacity: Maximum Sustained Work Capability Limited to Medium Work as a Result of Severe

Medical Vocational Guidelines/ "Grids" continued...

- See the Rules at https://www.federalregister.gov/documents/2020/02/25/2020-03199/removing-inability-to-communicate-in-english-as-an-education-category
- Proving disability becomes easier as claimants age

Borderline Age

Applicants may be able to get bumped into a higher age category if:

- 1. The applicant is within a few days or months of the next age category
 - Usually within 6 months of the birthday
- 2. Using the higher age category would result in a finding of disability

Reduction of the Occupational Base

- If the claimant does not "GRID out" then the adjudicator decides whether the Residual Functional Capacity (RFC) precludes full-time competitive remunerative work in the national economy
- How much of a person's occupational base is reduced by the effects of the exertional and non-exertional impairments
- Whether the person could make a vocational adjustment considering their age, education, and work experience

The Application and Appeal Process

Application

Reconsideration

Hearing

Appeals Council

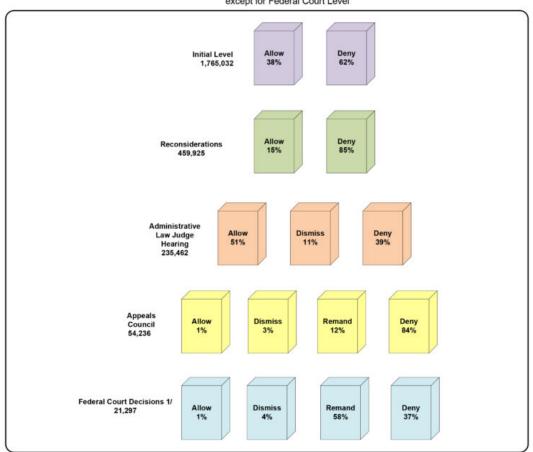

Federal Court

SSA Waterfall Chart

FISCAL YEAR 2022 WORKLOAD DATA: DISABILITY DECISIONS*

Continuing Disability Redeterminations (CDRs) are not included except for Federal Court Level

*Includes Title II, Title XVI, and concurrent initial disability determinations and appeals decisions issued in FY 2022, regardless of the year in which the initial claim was filed, and regardless of whether the claimant ever received benefits (in a small number of cases with a favorable disability decision benefits are subsequently denied because the claimant does not meet other eligibility requirements.) Does not include claims where an eligibility determination was reached without a determination of disability. If a determination or appeals decision was made on Title II and Title XVI claims for the same person, the results are treated as one concurrent decision.

1/ Federal Court data includes appeals of Continuing Disability Reviews.

NOTE: Due to rounding, data may not always total 100%.

Application Process

Applications for SSD can be done online at www.ssa.gov

Concurrent SSI and SSD applications can also be done online

SSI only applications do not currently have an online application

There is a protective filing date tool that can be used to request a phone appointment

SSD and SSI Applications can be done via telephone at

1800-772-1213

Can also be completed by walking in to the SSA Field Office

Mailing in or dropping off the required forms

Application Considerations

- Apply as soon as the claimant becomes disabled
- Claimant must be in medical treatment
- Will need the names of providers, contact information, and dates of treatment
- Should provide hospital visits
- Education records, IQ tests, IEPs if applicable
- Names and dates of medical testing and imaging
- Medication list from Pharmacy
- Work history including unsuccessful work attempts

Reconsideration

- If an application is denied the claimant should request reconsideration
- Must be done within 60 days of the date on the denial letter
- Reconsideration can be requested online at
 https://www.ssa.gov/apply/appeal-decision-we-made/request-reconsideration
- Update Social Security Administration on any new treatment
- If possible, request and submit records to SSA

Administrative Law Judge (ALJ) Hearing

- If denied at the reconsideration, request an ALJ Hearing
- Must be done within 60 days of the date on the denial letter
- Requests can be made online at:

https://www.ssa.gov/apply/appeal-decision-we-made/request-hearing

- Update medical information and submit evidence to the Office of Hearings Operations
- Hearings are held in person, by Microsoft Teams, or by phone
- At the hearing, the Judge may have a medical expert and/or vocational expert give testimony
- Legal representation at the hearing level is important

Appeals Council

- If denied at the hearing level a claimant can submit an appeal to the appeals council
- Must be done within 60 days of the date on the denial letter
- A determination will be made about whether the ALJ made mistakes about the law or facts of a case
- The individual could also decide to reapply for benefits but cannot reapply and continue an appeal
 - Keep in mind the DLI when making this decision

Federal Court

- If a claimant receives an Appeals Council denial, they can appeal to the United States District Court
- Can also simultaneously reapply
- Federal Court cases are decided based on whether the ALJ followed the proper rules and procedures
